# Healing and Guiding Children Through Art

بنی آدم اعضاء یکدیگرند  
که در آفرینش یک گوشتند  
چون کسی برادرش را زد  
در عضو را نماند زخم  
نشانده که نامت نماند آدمی  
تو که نیستی دیگران بی غمی

"Human beings are members of a whole  
In creation of one essence and soul  
If one member is afflicted with pain  
Other members uneasy will remain  
If you have no sympathy for human pain  
The name of human you cannot retain"

Saddi - Iranian poet/philosopher

## Love International Film Festival

*We are living in a world where chaos challenges every nation and every individual equally. Our mission is to live in a world where chaos challenges every nation and every individual equally. Fear of violence, hatred, persecution, misuse of religious and financial uncertainty follows us all. We stand divided in belief, nationalities and even within countries— ideology. We are a world that often seems bereft of hope or*

*a unifying vision. It is our goal to turn the world's eyes to the beauty that exist in front of us all. It is my hope that we will play a part in art and creativity returning everyone to the abundance that surrounds us all. When you look at our little planet from space, its singular beauty is clearly seen. Its smallness in the great void should communicate that we all live in one home. This world of ours is exactly that, it is a world of OURS; a place for all of us to share, build and nurture. Regardless of your religious beliefs, I hope you still believe in Love and Peace for all. Lets define God in his purest form as love and peace, and with this new definition, help each other and help build our home in a way that there is enough for all of us.*

*This is the message of the festival, that through the power of creative energy and the efforts of filmmakers and artists alike, the world can become a unified and beautiful place. Film and the use of images is a powerful medium of change. Even the films with bleak stories are often allegories of difficult choices, much like the fables of old. Film already breaks down the barriers of nationality in production and content. Now films made in little places around the world can leap into large places, and large productions may go to little places to capture their imagination. People from around the world work together to create films.*

*The festival is an opportunity to acknowledge and reward these global creative efforts. In this wonderfully connected age, the art of cinema can document our efforts on a global scale. Film and filmmakers around the world are capturing the images that educate, guide us, inform us and entertain us.*

*As this grand sharing continues, Love International Film Festival will become one of those windows you can peek through and see wonders from around the world. I wish all of you love and peace. I wish all of you to become part of the power of love through creation of epic films, art and music, even if your part is simply gazing upon what others have created.*

*I strongly believe, it is important that we share and explore this world with our younger generations. They have the fire, understanding and the ability to connect globally. They are less prejudiced with what is before their eyes. They desire change and work for it. With this in mind, I have chosen younger creative souls to help and run festival, for they can relate to the views of the younger generation. I give them my support and wish them all the luck I can give on this most important journey. I welcome all, from every nation, who wish to join and help us.*

## Ata Servati

**Founder/President/Board of Directors**

**Ata Servati, is a spiritual prize-winning international philosophical poet/writer/actor director, film maker, activist and World Peace Honoree.**

*As a spiritual man, Ata has chosen to follow the path of legends such as Rumi, Omar Khayyam and Hafez. His own spirituality began at the age of four when he began to receive premonitions in his dreams. Ata relates the creative forces in his life as the spiritual reminder and choice based on those early childhood experiences.*

*Before the National Rebellion in his homeland began to rage on, Ata's career as a filmmaker and writer was beginning taking off. He began to write, direct, and produce productions throughout the world. Before National Rebellion began, Ata left his homeland to come to the United States.*

*The decision to follow a spiritual calling was not an easy one for Ata. He ignored it for many years trying sustaining it through his creative and business efforts. These efforts along with his business understanding led to a lavish life style common to many people in the film and Real Estate. Ata had financial success, but not happiness. In early 2006 the Real Estate Market was into its collapse. Ata, who up until that time had been successful, experienced a personal and financial disaster. His business failed and his marriage ended. He went from living in a lavish house to becoming homeless. He began to live out of his car. To someone else born to wealth and fame this drastic change of fate would have been the lowest point of their lives. To Ata it was and the beginning of the best moment in his entire life. In that moment he remembered the hopes and dreams of his childhood. It was this experience that led to him to make a choice, and commit to the spiritual path. Ata began to write again, and to focus on the spiritual forces that surround all of us. After many wasted years Ata has found his peace and true path that he was meant to live on. He has rededicated his life to bringing spirituality and healing in the world. The Lotus Light Children Charity is an expression of this love, hope and desire to help and enlighten children; by bring healing to them through art. The Love International Film Festival, founded by Ata provides and opportunity to support this charity and positive art in cinema around the world. Along with founding The Lotus Light Children Charity, Ata has once again entered into filmmaking with his production company Enlightenment Entertainment. He has also recently published his novel "In Search of Heaven" and a book of spiritual poetry from the heart, "I Am A Lotus". His new novels "Baba," "In Search Of Love" and a three-part compilation "The Shrine," "Married To The Well," "The Silent Beggar" are schedule for release in 2016 and 2017. Ata Servati is grateful to be able to share his love and creativity with the world. His company Enlightenment Entertainment has several film in preproduction , includes BABA, In Search Of Heaven, Dream On Empty, CellFish and...*

*Love is not a game  
To be played  
Love is sharing,  
Love is giving,  
Love is what gives  
Life a meaning  
Love is not a word  
To be expressed  
Love is kind  
And sometimes mad  
Love is what brings  
Peace of mind*

*Love is not a toy  
To be destroyed  
Love is caring  
Love is joy  
Love is what shows  
True feeling  
Love is not a tool  
To be used  
Love is laughter  
And sometimes tears  
Love is what talks  
Through silence*

*Love is not what  
To be betrayed  
Love is hope  
Love is life  
Love is what makes  
You and me one soul...*

In short, it is a mystical voyage about a simple young American man who battles not only over his soul but for the freedom of a nation during an era of oppression and finally discovery of the "Garden of Eden" An Iranian Lawrence of Arabia. **Van Choat** is an AWARD-WINNING author and dedicated defense acquisition professional at the Space and Missile Systems Center, Los Angeles Air Force Base. Born in Vietnam and orphaned at the age of four, Van was shuttled among a variety of custodians whose guardianship ranged from her grandmother's stoic love to open abuse by relatives and strangers. At age fifteen, Van escaped to the United State with her adopted family on the eve of Saigon's fall, April 1975.

Van believes supporting LIFF and the Lotus Light Children's Charity provides a true sense of purpose. The orphan child is blameless child, who has not chosen to be alone in this world without a Father and Mother, and within each and everyone of them beats a precious, though lonely heart. Orphans deserve all we can give.

# The Peace Project

Our founder **Ata Servati** has a vision; the dream of seeing Jewish, Palestinian and Christians resolve their differences and realize people are more important than religions. Ata and his team work to build respect and tolerance toward one another, so we may walk in peace. He has presented us with this idea to take the first steps in a peace project between the state of Israel and Palestine. Lotus Light is a dynamic non-profit organization committed to promoting peace through the arts. Reaching the next generation of children, Teaching them the importance of love, respect and tolerance can change the course of the world. The primary objective of the founder, Ata Servati, since the organization's inception was to focus on the plight of the Middle East, and more specifically, the conflict between the Jewish state of Israel and Palestine. One Major Step to achieve that end is "The PEACE MARCH". Lotus Light believes the vast majority of the people from both countries, Israel and Palestine are tired of death and destruction and want to end the struggle and vicious cycle of pain.

Through Lotus Light Programs, in partnership with artists and peace loving peoples around the world, we can help them to take the steps necessary to reach an understanding, with compassion and mutual respect for one another. By harnessing the power of multi-disciplines within the arts, Lotus Light is creating a rally for Peace. Success in the past, such as "We are the World" and "I'd like to Teach the World to Sing", Lotus Light is working with world renowned artists to create a song with lyrics that reflect that promise of peace, friendship and forgiveness on a grand and global scale, Celebrating hope for our Children of Tomorrow. We have several commitments and are seeking more peace loving Palestinian and Israeli artists as well as other major talents and lovers of peace from around this globe, to join us, and to come together for this seemingly impossible, momentous and most worthy occasion and cause. Scheduled to March and Rally in song this New Years Eve, at the border, most likely in Jerusalem, the City we wish to call "The City of Peace"...

Songwriters, musicians and poets, that feel they can express the deep feelings of both the Israeli and Palestinian people; to honor and represent both sides for all to see, in a one unifying song, expressing the joy of peace. The Peace March Logistics are as follow: Upon Completion of our song, the media will be advised. UN Peace-keepers will also participate on site December 31st. We will organize three groups;

- A) A large group of Palestinian children paired with a Palestinian singer and other international artists, and will start singing in Arabic/English and Hebrew and rallying toward the border;
- B) At the same time a group of Israeli children with Israeli artists/and international artists will start rallying from the Jewish state side toward the border, singing the same song in Hebrew/English and Arabic.
- C) The final Rally, gathering on site at the Border, where both groups will be set to meet.

A third group of international artists and peace lovers will be waiting to join the celebration, singing and dancing to the same song in English/Arabic/Hebrew. Group A and B will reach the border at the same time joining group C and all will sing together in one voice, like a great choir. They will embrace and dance, shaking hands, and then saying what needs to be said to one another through poetry. We will invite and coordinate mass media to be present and document the celebration and to broadcast the voices of both groups of children. Both the Palestinian and Jewish children and other participants sharing the arts to the entire world will show how a step toward peace and progress is truly possible. We are reaching out to all Israelis, Palestinians and other like-minded artists around the world to join us at Lotus Light to make this happen, in a large, loving, powerful way. Please join TLLCC to achieve this momentous and important milestone in the journey to world peace.

# A Message from The Founder–Ata Servati

**Imagine** a world where Jewish and Palestinian are able to simultaneously march to the border, ignoring soldiers and guns, and meet to express their love, tolerance, and respect for one another.

**Just imagine** how beautiful and peaceful life would be.

**Imagine** a world where Muslims and Hindus can come together as one in Pakistan and India. Forgetting their differences and struggles and stand together, as the great Gandhi had wanted.

**Imagine** a world where the money we use to pay for war is instead used to educate those involved in war. Using the money to build hospitals, schools, daycare centers, and universities — educating children on the importance of love, peace, tolerance, respect, kindness, and acceptance.

**Imagine** a world where the money spent on competing to build bigger and more lavish places of worship, was redirected to feed the thousands of children that die from hunger every day. What a world this would be.

**Imagine** if all religions adopted the basic principles of simplicity, humbleness, and humility that are found within all religions, instead of Competing and denying each other equality. What a peaceful world we could offer our children.

**Lets remind ourselves**, greedy mad men that call themselves leaders, hijack our religions, ideology, and philosophies to further their greed, wealth, and power. Leading our innocent children, the wealth and foundation of our future, into abusive child labor, prostitution, poverty, and saddest of all, brainwashing.

**Look all around you**, there are wars being fought to prove whose religion and beliefs are “right.” Ask yourself, is that what the principles of our human race are all about? Teaching our children to hate, kill, or fear one another based on different beliefs?

**Lets remind ourselves**, sadly, at this point in time, we as humans, place ourselves at the edge of destruction. Risking not only the death of ourselves, but of the Earth as well. Some religions have spread like wildfires. They are being abused, altered, and misinterpreted time and time again. They have led our children down paths of twists, turns, and confusion.

**Lets remind ourselves**, we as humans are alive to bring peace and love to the world.

**Lets remind ourselves**, we hold certain principles and belief system’s to keep us grounded. Helping us to achieve these important principles.

**Lets remind ourselves**, we choose different paths such as religion, ideologies, and philosophies to guide us to be better human beings.

**Lets remind ourselves**, religion is the manifestation of God’s wishes for us. It exists to make the world a better place. To further us as human beings by spreading love and respect. To teach us to control our minds, bodies, and souls. To allow us to gain wisdom, tolerance, and respect for one another’s beliefs and existence. Lets believe and remind ourselves, that devotion to a religion is a deep and personal choice. A choice not forced by any government, person, or organization. This choice, this desire, can be respected and loved. A choice free of any influence or pressure to follow what their parents, elders, or leaders believe. They must be free to search and choose their own path, to match the vibration that emanates from them. We are all on different journeys and have different lessons to learn, and thus will need different things.

**Lets remind ourselves**, we are at a crucial point in our world’s history. A time to stop and think and separate the good from the bad. To remind others and ourselves that manipulating innocent children, while promising them Heaven and salvation is wrong. We have a responsibility to lead our children, allowing them to choose their own path and beliefs to follow. We all have something unique and magical to contribute. We can be the difference for future generations.

We can practice **LOVE, RESPECT, PEACE, TOLERANCE, FORGIVENESS, KINDNESS, and UNDERSTANDING** for one another — regardless of our **RELIGIOUS BELIEFS** or **NATIONALITIES**

**Let’s believe that LOVE** is the way to be a better soul.

**Let’s believe that PEACE** will give us a chance to heal the problem.

**Let’s believe that TOLERANCE** is the way to understand one another.

**Let’s believe that UNDERSTANDING** is the way to know one another.

**Let’s believe FORGIVENESS** is the best medicine for healing our soul.

**Let’s believe KINDNESS and CARING** for others are the way of humanity.

**Let’s believe** that we can replace the hatred, violence, and unholiness, in our hearts with love, peace, harmony, in our souls.

**Let’s believe** a child holding a camera, catching the mysteries of the earth, is less likely to destroy it.

**Let’s believe** a child who dances to the beat of their own heart will protect the hearts of others.

**Let’s believe** a child who hears and makes music will **DENY** the sounds of pain and agony..

**Let’s believe** a child who writes in rhyme, will help harmony last within words.

**Let’s believe** a child holding a book in his hands is less likely to hold a gun.

**Let’s believe** a child who cherishes the moment will not demolish it.

**Let’s believe** a child painting on canvas with the colors of life is less likely to take a life.

**Let’s believe** by achieving these things, we will gain **BALANCE, HARMONY** and the greatest gift of God, **HEALTH**.
